

## Limited Editions

Our editions are strictly limited to protect your investment. We offer two editions of most pieces: the Collector's Edition and the Silver Edition. Every artwork includes a certificate of authenticity that describes the artwork. The certificate is signed, numbered and embossed by the artist.

### **Collector's Edition**

Each title in the Premium Collection is limited to only 12 numbered prints plus four artist's proofs. After the number of editions is sold, that image will never be offered in that size and medium again. Every art piece includes a certificate of authenticity that describes the artwork.

### **Silver Edition**

Following the release of the Premium Collection, we will introduce some of our images at a reduced image size. Called the Silver Edition, these images are typically reproduced at about one-fourth the image size in the Premium Collection. The Silver Edition is limited to only 100 numbered prints plus ten artist's proofs.

### **Artist's Proofs**

The artist creates four reproductions from The Collector's Edition and ten reproductions from the Silver Edition. The artist maintains this collection for use at events, museum installations and gallery exhibitions. These images are retained by the artist and may occasionally be made available for purchase.
