

## Dental Arts Facility chooses artwork from David Leaser

LOS ANGELES, CALIF. – Many medical professionals are beginning to recognize the impact artwork selection can have on their patients' moods. Carefully chosen artwork can create a peaceful environment that can reduce stress and anxiety.

David Leaser's botanical images have proven to be a perfect fit for corporate offices and professional arts buildings. According to Cheryl Goldasich, DDS, a dentist in Southern California, "I want patient's to come into my clinic and relax. By having beautiful artwork on the wall, I can create an environment that allows my patient's to forget about procedures and enjoy beautiful, comfortable surroundings."

Dr. Goldasich says she was captivated by David Leaser's artwork and decided to incorporate his work into her interior design. "David's botanical images are breathtaking. At least once a day, clients will comment on the artwork and ask me questions. They can't believe the incredible detail in the work."

The artwork Dr. Goldasich chose is wall size, approximately 46" x 46" framed. "David's artwork has turned our offices into an art gallery. I couldn't be more pleased with the transformation," Goldasich said.
