

## Botanical journal praises David Leaser's photography

The *Palms Journal*, the membership newsletter of the International Palm Society, reviewed David Leaser's photographic work, titled *Palm Trees: A Story in Photographs*. According to the review by Dr. Scott Zona, "David Leaser's new book, *Palm Trees: A Story in Photographs*, is brilliant in concept: Show the diversity, beauty and importance of palms through a large-format picture book, let the photographs do the talking and keep the text clean and simple. The book succeeds admirably and resoundingly! It is a large-format "coffee-table book" devoted to palms. It is the sort of book one can dip into at random or read cover to cover. Either way, the book is a treat."
